

Ridgeway Primary Academy Market Harborough & The Bowdens Charity Schools Bursaries Report

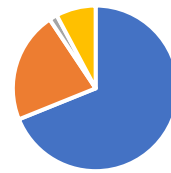

The Schools Bursary of £60,000 over the last three years has enabled Ridgeway Primary Academy to invest in four distinct areas. These areas have benefitted all pupils and staff across the school.

IT in our classrooms

The largest investment has been upgrading our IT equipment ensuring it gives our students and teachers the most up to date and interactive learning experience possible. This was hugely beneficial during covid and now is enabling children across the school to engage in effective learning back in the classrooms.

Ridgeway Primary Academy

- Improving IT in our classrooms
- Inspiring learning spaces
- Other learning resources
- Safeguarding our pupils

Inspiring Learning Spaces

We have also spent funds on creating inspiring learning spaces which encourage the children to read, learn and take a pride in their surroundings. Creating calm and nature inspired areas with mindfulness and mental wellbeing at the centre of the spaces

Safeguarding our Pupils

Safeguarding our pupils is always at the heart of what we do so this bursary has enabled us to invest in systems to monitor and check pupils, staff and visitors on site quickly and easily.

Learning Resources

New equipment to support our science curriculum has been purchased, designed for hands on learning outside in nature, plus a reading app which is being used by teachers, parents and pupils to develop a love of reading.

Thank you from everyone at Ridgeway for these funds; they have made such a difference to our school community
